

The index has been established for the family stories, church, civic and school sections only, and is on a surname basis. Each number following a surname represents a story number in which that surname will be found. The number is not a page number. 2014 surnames are reflected in this index. There are a few that have been found which did not have a story number. These are identified with a ? following the surname. The condition was found after the indexing had been completed and the index cards removed from the stores they had been associated with.

The separate letter S shown after some surname story listings means that the surname will also be found in the special school photograph section of this book.
